Title: trampled parchment with blood splatters

Author: Carien Pale

Toren,
   If Lenora will not
hand the tomes over to
me willingly, I will take
them by force. I gave
her one last chance
yesterday and she
refused. Join me this
evening and we will get
the tomes from her! I
will meet you at her
house at dusk. If we
haven't found them by
the time she returns
home from the tavern
tonight, we will bring her
to our lair and... force...
their location out of her.
I will leave the kidnapping
to you, if it comes down
to that.
